YOUR PROGRESS

Our teachers are passionate about your progress, each student is treated as an individual with their own personalised language and life objectives and every student receives individual attention.

Before they start a course every student completes an English level placement test and has an academic consultation in order to determine their level of English and agree their learning pathway and objectives. Each week starts with clear, functional learning objectives and each week ends with a short class test to assess weekly progress and ensure that weekly objectives have been achieved.

TEACHERS AND ACADEMIC STAFF CONTINUOUSLY MONITOR YOUR PROGRESS...

...to ensure you are progressing and can move to a higher level when ready. On completion of your course you will receive an *End of Course Certificate* stating your current English level and length of course. There is also an End of Course Assessment.

"I took a three-month course in Arena School and I'm glad to say that it was impressive. From the first day, when they tested my English skills to place me in the right level, until the last, when I felt sad leaving behind friends and a breathtaking teacher. The facilities of the school are perfectly adequate – computers, study club (once a week), resources to self-study, social events and activities every week; and it's big selling point is the prize. It's definitely a great school for anyone who want to improve his command of the English language. All being well I'll be back in a few months to prepare the CAE exam!"
